9 Lomonosova str., 2202 (Church)

Monday, February 15

NANO.WORKSHOP PROGRAM

14:00 - 14:20	ANNA ORLOVA Hybrid nanostructures for life science
14:20 - 14:40	ALEKSANDR LITVIN Optical properties of Nanomaterials for optoelectronics
14:40 - 15:00	ELENA USHAKOVA Carbon nanoparticles: from synthesis to applications
15:00 - 15:10	ANTON BABAEV Experimental Facilities in International Center for Physics of Nanostructures
15:10 - 15:30	Coffee-break
15:30 - 15:50	MIKHAIL ZYUZIN Radionuclide delivery systems based on core-shell particles
15:50 - 16:10	ANDREY BOGDANOV Bound states in the continuum
16:10 - 16:30	ANTON SAMUSEV Polaritonics with 2D materials
16:30 - 16:50	DMITRY ZUEV Hybrid nanophotonics
16:50 - 17:10	SERGEY MAKAROV Nanomaterials for nanolasers
